

New Mexico Medical Society Legislative Update

March 12, 2015

This morning NMMS priority bills – SB325 Limiting non-compete contractual provisions, SB121 Establishing a vaccine purchasing act, and SB189 Good Samaritan liability for defibrillation – were heard in House Health Committee, having passed through Senate committees and floor votes. **All three bills reported DO PASS.** SB325 and SB189 now proceed to House Judiciary and SB121 goes to the House Floor for a vote! Another bill NMMS has followed and worked on closely – SB220 which established health care provider credentialing requirements- also passed House Health late this morning and now progresses to House Business and Employment Committee. NMMS members have been very active in supporting and testifying for these bill and NMMS thanks **Dr. Jim Martinez**, **Dr. Lance Chilton**, and **Dr. Barry Ramo** for their time and expertise.

Late last night the Senate Judiciary Committee heard SB 376 with a packed room of chiropractors - half supporting the expanded practice and the other half opposed. **Dr. Grant LaFarge**, Medical Director for the NM Board of Medicine and NMMS member for 30 years, presented numerous problems with the bill. The committee **tabled SB 376**. NMMS thanks Dr. LaFarge for attending two long nights at the capital – the bill was first scheduled for Monday night and at 11:30 p.m. it finally rolled over to Wednesday night, where it was scheduled near the end of a very full agenda. NMMS also thanks **Dr. Bill Ritchie** who had taken time out of his practice schedule to testify against this bill when it was heard by Senate Public Affairs back on the 20th.

Dr. La Farge also attended the Senate Public Affairs Committee where HB 54 - amending requirements for Anesthesia Assistants - was passed after a compromise was found. **Senator Daniel Ivey-Soto** crafted a 5 page amendment to a 2 page bill that changed the supervision requirements--leaving it the same at UNM but requiring 3 anesthesia physicians on staff at hospitals in Class A counties that wish to hire AAs.

HM9 –which originated in NMMS Children’s Medical Services Committee, chaired by **Sandra Whisler MD** – passed the House unanimously (70-0) on Tuesday (3/10/15). The bill, carried by freshman **Representative David Adkins** – requests the Children’s Medical Services Program at Department of Health and UNM’s Center for Development and Disability to convene a task force to study ways to improve the system of health care of New Mexicans with special health care needs as they transition from pediatric to adult care.

After testimony from **Dr. Michael Linver**, SB305, proposing 3D mammograms for Medicaid and cancer screening eligible women, reported DO PASS as amended by Senate Public Affairs Committee and now heads to Senate Finance.

This has been a very busy period for NMMS priority and tracked bills as the finish line of noon on March 21 approaches. Please contact **Randy Marshall** at (505) 263-4912 or NMMS staff at (505) 796-3433 with questions and concerns. More information is available at www.nmlegis.gov or by request to NMMS.
