

CALL FOR POSTERS

New Mexico Medical Society Annual Meeting 2022

Building Bridges within the Profession

September 30, 2022

Sheraton Albuquerque Uptown

2600 Louisiana Blvd NE

<https://www.marriott.com/en-us/hotels/abqsi-sheraton-albuquerque-uptown/overview/>

Poster Eligibility: Original submissions that either have or have not been presented at other meetings will be considered.

Author Eligibility: The first author of an abstract must be a member of NMMS or a medical student (UNM or BCOM) member in good standing and must be registered for the convention by August 31st. An author may be first author on only one submission in each of three categories but may be listed on more than one submission (as second or later author) per category. If the poster has been presented previously, the author must include information on when and where.

Deadline to Submit: Submit application form (following page) and your abstract or report electronically to events@nmms.org by midnight, August 31, 2022.

Questions: Sebrena Figueroa, 505-796-3435 or Adriane D'Angelico, 505-796-3437. Events@nmms.org.

Notification of Results: Week of September 19th via email.

Obligation of Accepted Poster Applicants: On Friday, September 30, plan to set up your poster between 2:00-3:30 p.m. in the Wurlitzer Room. You will need to attend the poster session and answer questions about your poster from 5:00-6:30 p.m. Afterward you may dismantle the display and take home your materials. The reception will conclude around 7:00 pm. Please use a tri-fold display board measuring 36" x 48". You will need to bring your own clips or pins.

Recognition: All accepted abstracts and reports will be compiled into an electronic program book, included with conference materials, and posted to the conference website. Each presenter will be given a certificate of participation at the conference event (must be present to receive).

Three Categories of Posters

1. Clinical Vignette - a report of one or more cases that illustrates a new disease entity, or a prominent or unusual clinical feature of an established disease. It may include a summary of pertinent patient history, physical findings, laboratory data, or management description.

2. Research - report clinical and/or laboratory-based research, delineate a new investigation into mechanisms of disease, or consist of a detailed review of a clinical problem. Abstract to include:

- Purpose for study (one sentence if possible).
- Simple statement of methods.
- Summary of results (adequate to support conclusions).
- Statement of conclusions (Do not use phrases such as "The results will be discussed.")

3. Quality Improvement/Patient Safety – abstract to include:

- Brief description of context: relevant details of staff and function of department, team, unit, patient group
- Outline of problem: what were you trying to accomplish?
- Key measures for improvement: what would constitute improvement in the view of patients/clients?
- Process of gathering information: methods used to assess problems
- Analysis and interpretation: how did this information help your understanding of the problem?
- Strategy for change: what actual changes were made, how were they implemented and who was involved in the change process?
- Effects of change: did this lead to improvement for patients/clients -how did you know?
Next steps: what have you learned/achieved and how will you take this forward?
