BEFORE WE START...

On behalf of all colleagues at the Human Services Department, we humbly acknowledge we are on the unceded ancestral lands of the original peoples of the Pueblo, Apache, and Diné past, present, and future.

With gratitude we pay our respects to the land, the people and the communities that contribute to what today is known as the State of New Mexico.

Evening drive through Corrales, NM in October 2021.

*Investing for tomorrow, delivering today.*
MISSION

To transform lives. Working with our partners, we design and deliver innovative, high quality health and human services that improve the security and promote independence for New Mexicans in their communities.

GOALS

We help NEW MEXICANS

1. Improve the value and range of services we provide to ensure that every qualified New Mexican receives timely and accurate benefits.

We make access EASIER

3. Successfully implement technology to give customers and staff the best and most convenient access to services and information.

We communicate EFFECTIVELY

2. Create effective, transparent communication to enhance the public trust.

We support EACH OTHER

4. Promote an environment of mutual respect, trust and open communication to grow and reach our professional goals.

Investing for tomorrow, delivering today.
HSD SERVES 51% OF NEW MEXICANS

Unique HSD Customers, March 2023

*Months with a Pandemic EBT Payment

Medicaid & CHIP Recipients as a Percentage of Population by County, June 2022

New Mexico Residents enrolled in Medicaid & CHIP: 45.4%
The initial recipients are:

- **Covenant Health Hobbs**: Expanding labor and delivery, pre-and post-natal care, and maternal health in Lea and Eddy Counties.
- **El Centro Family Health**: Start-up of dental health services in Taos County.
- **Gallup Community Health**: Increase primary care and behavioral health services in McKinley County.
- **Gerald Champion Regional Medical Center**: Restart in-person outpatient psychiatric services that ceased during the COVID-19 pandemic and expand inpatient behavioral health in Otero County.
- **Laguna Healthcare Corp**: Expand primary care services, pharmacy, laboratory, and radiology in Cibola County.
- **Mimbres Memorial Hospital**: Expand pediatric outpatient, inpatient, emergency, and labor and delivery services in Luna County.
- **Nurstead Consulting Services, LLC**: Create a 24-hour, 7-day-a-week drop-in facility to provide mental health support services in Curry County.
- **South Central Colfax County Special Hospital District**: Increase primary care services, particularly for older adults, and expand substance use services in Colfax County.
- **Sunrise Clinics**: Expand and increase primary care and behavioral health services for youth in Colfax, Guadalupe, Harding, Mora, Quay, Taos, and Torrance Counties.
- **The Learning Path, LLC**: Expand in-person behavioral health services in Socorro County.
- **The Psychiatric Care Center LLC**: Expand behavioral health services in Curry, De Baca, Lea, Quay, and Roosevelt Counties.
NEW MEXICO PRIMARY CARE COUNCIL

MISSION

Revolutionize primary care into InterProfessional, sustainable teams delivering high-quality, accessible, equitable health care across New Mexico through partnerships with patients, families, and communities.

VISION

By 2026, New Mexico will exemplify same-day access to high-quality, equitable primary care for all persons, families, and communities.

GOALS

Health Equity

Develop and drive investments in health equity to improve the health of New Mexicans.

Health Technology

Develop and drive health information technology improvements and investments that make high quality primary care seamless and easy for Primary Care Interprofessional Teams, patients, families, and communities.

Payment Strategies

 Develop and make recommendations regarding sustainable payment models and strategies to achieve high quality and equitable primary care for all New Mexicans.

Workforce Sustainability

Create a sustainable workforce, financial model, and budget to support our mission and secure necessary state and federal funding.
PRIMARY CARE PAYMENT REFORM: GOALS OF THE PAYMENT MODEL
WHY WE NEED CHANGE

Accessible, equitable, and high-quality primary care is foundational to an effective healthcare system.

- The COVID-19 crisis brought to the forefront and exacerbated shortcomings in the current primary care system.

- Payment reforms will be transformative for primary care clinics, providers and clinicians:
  - Increased compensation for primary care clinicians and practices
  - New models retain current workforce and attract new team members
  - Increased access to primary care services for patients
  - Sustainable health care costs
  - Lowered clinician burnout

Investing for tomorrow, delivering today.
A MODEL DESIGNED BY AND FOR NEW MEXICO

In 2023 we are:

▪ Introducing the model
▪ Increasing provider and clinician readiness to adopt the payment model
▪ Supporting providers and clinicians with learning opportunities to ease adoption
▪ Increasing awareness of state programs that support primary care clinics, providers & clinicians

While we are in the roll-out phase of the model, HSD will continue to solicit feedback for future improvements. The model is built to grow as providers, clinicians, and the State have access to more knowledge, ability, and resources.

Investing for tomorrow, delivering today.
New Mexico Medicaid Primary Care Payment Model Reforms will Address

**HEALTH EQUITY** | **WORKFORCE SUSTAINABILITY** | **HEALTH TECHNOLOGY**

**Human Services Department is partnering and collaborating with New Mexicans to provide feedback and provide technical assistance. Our aim is to provide High Quality, Equitable Primary Care to all New Mexicans.**

**Benefits for Patients & Families**
- Increased health equity
- Increased access
- Better health care quality
- Whole-person, team-based care
- Integrated Behavioral Health, Dental, & Vision
- Connection to Social Services & Community
- Reduced health care costs

**Benefits for Clinicians & Providers**
- Sustainable workforce & improve workplace wellness
- Payment for care of patients
- Increased flexibility and administrative efficiency
- Team-based care approach
- Increased patient care time
- Sustainable financial models
- Improved technology resources

**Benefits for Communities**
- Increased public and population health focus
- Relationships between social services, providers, and community members
- Improved health outcomes

**Benefits for Payors**
- Ability to measure health outcomes
- Payment for quality and health outcomes
- Reduction in hospital utilization
- Incentives for efficient use of health care dollars

---

*Investing for tomorrow, delivering today.*
MEET JACKIE, A PRIMARY CARE CLINICIAN

Under the current primary care payment model, a typical day for Jackie involves...

- A focus on volume, seeing 20-25 patients per day
- Reimbursement based on linking patient care to payment codes, not whole-person, high-quality care
- Siloed work and no close collaboration with an interdisciplinary team to meet all of a patient’s needs
- Arduous documentation, including “pajama time”
- Fee-for-service reimbursement is retroactive and prior authorizations are a barrier to care

Investing for tomorrow, delivering today.
THE NEW MEDICAID PRIMARY CARE PAYMENT MODEL WILL IMPROVE JACKIE’S WORK AND HER PATIENTS’ HEALTH

Under the primary care payment reform, Jackie's typical day transforms to involve...

A focus on quality, with volume of patients adjusted to accommodate complexity of patient need

Population-health driven reimbursement that rewards high quality care and is data driven

Ongoing collaborative care by inter-professional teams to treat patients holistically and share best practices

Reduced administrative burden and time shifted to patient care

Payments are paid prospectively, and prior authorizations are less intrusive under capitation
PAYMENT REFORM ROADMAP

We are here!
HSD is ramping up provider supports to improve readiness. The payment model is being refined and finalized based on stakeholder input.

2021
The Primary Care Council was established and identified payment strategies as a key goal.

2022
The PCC developed a vision for payment reform, HSD conducted listening sessions, and model development began.

2024-2026
The payment model will be operationalized with HSD’s Medical Assistance Division.

2026 and Beyond
The payment reform will support team-based and patient-centered care, health equity, and provider well-being.

Investing for tomorrow, delivering today.
PRIMARY CARE PAYMENT REFORM:
HIGH-LEVEL OVERVIEW OF THE MODEL
BEFORE WE PROCEED, THREE IMPORTANT THINGS TO KEEP IN MIND

1. Primary care providers will continue delivering care as they are now. *In Year 0, nothing additional is expected in terms of how primary care is delivered.*

2. Primary care providers will be expected to report on quality measures. Supports needed to assist with this reporting will be identified and provided.

3. Primary care providers will receive an incentive payment to further invest in infrastructure, staffing, building additional capacity, etc. The incentive payment amount is yet to be determined.

*Investing for tomorrow, delivering today.*
MEDICAID PRIMARY CARE PAYMENT REFORM FRAMEWORK

Tier 1: Enhanced Reimbursement and Quality Rewards
HCP-LAN Category 2-C

- Fully functional capitation arrangement, integrating more services & recognizing PCPs’ impact on services not directly provided by them (e.g., bundled payments, shared savings)
- Quality metrics reinforce equity, quality, and outcomes
- Providers may have upside and downside risk
- May initially be best suited for integrated delivery systems

Tier 2: Collaborative Partnerships
HCP-LAN Category 4-B

- Providers are supported by partnership & met where they are
- Entry point into capitation; provider & MCOs establish what type of capitation makes sense for the provider (e.g., care management PMPM or direct service payment on a PMPM basis).
- May initially be best suited for medium-to-large providers with established relationships

Tier 3: Capitation w/ Shared Savings
HCP-LAN Category 4-B + 3-B

- Two new funding sources: Enhanced fee-for-service tied to provision of services & incentive payments (e.g., for quality metrics, submitting data, continuation of current services)
- Allows immediate system-wide participation including:
  - Small-scale and rural providers, Indian Health Services, and other providers not ready for Tier 2 or 3

Detach payment from provision of services = increased flexibility

Investing for tomorrow, delivering today.
THE NEW MEDICAID PRIMARY CARE PAYMENT MODEL OFFERS AN OPPORTUNITY FOR ADDITIONAL INVESTMENT

**Chart is for illustrative purposes only and does not indicate actual dollar amounts, percentages, or required/actual payment types.**

**Investing for tomorrow, delivering today.**
PAYMENT REFORM AND INCENTIVIZING INTEGRATION

Tier 1: Integrated Fee-For-Service Payment Reform

- Primary care, specialists, and behavioral health providers work in separate facilities and have separate systems.
- Providers rarely communicate about cases but do engage in periodic communication about shared patients (usually high-risk) and view each other as resources.
- Payment is made to the provider/practice exclusively. Payment covers care services for a single visit.

Tier 2: Collaborative Partnerships

- Closer collaboration between primary care, specialists, and behavioral health providers (e.g., may work within separate systems but in a shared facility). May include an embedded Care Navigator. Complex cases often drive consultation.
- Proximity supports, at minimum, occasional face-to-face meetings. Communication is improved and more regular.
- Payment covers care delivered by PCPs and limited specialists. Payment measures/rewards intermediate clinical measures.

Tier 3: Capitation with Shared Savings

- High levels of collaboration between primary care, specialists, and behavioral health providers. May incorporate a team-based approach to care. Some issues, such as a lack of an integrated medical record, may exist.
- Full collaboration between provider groups allows system cultures to merge into a single transformed practice. The operation is viewed as a single system treating the whole person and is applied to all patients.
- Payment covers care delivered by broad professional services providers (e.g., PCP, specialist, dental, vision, and behavioral health providers). Payment measures/rewards advanced clinical measures and all baseline measures.

High Integration

Medium Integration

No to Low Integration

Investing for tomorrow, delivering today.
The primary care payment reform is intended to reward primary care providers for providing high quality care to their patients.

1. Providers and MCOs will establish their own arrangements for data collection and reporting. Metrics are consistent across all MCOs, allowing for identical reporting structures and reducing provider burden.

2. Metrics are a mix of clinical process and outcome measures, access to care standards, and patient-centered metrics. Metric selection is influenced by areas where New Mexico is low performing relative to national benchmarks.

3. The quality framework develops over time:
   - Initial focus on reporting, access to care, and patient-centered metrics
   - Additional metrics will be added each year
   - Metrics will be adjusted over time depending on performance, but no metrics will be removed for the first 1-2 years
QUALITY METRIC STRUCTURE

Start with minimal but impactful measures and grow requirements over time

Consistent inclusion of patient-centered measures

The minimum threshold for quality can be increased as providers move to higher-level tiers of the model

Year 0
- Reporting requirements (e.g., timely submissions to data intermediary)
Access to Care Measures:
- Initiation and Engagement of Alcohol and Other Drug Abuse or Dependence Treatment
- Third next available appointment (Tier 3 only)
- CAHPS patient satisfaction measures

Year 1
Add in:
- Breast Cancer Screening
- Cervical Cancer Screening
- Prenatal/Postpartum Care
- Lead Screening in Children
- Follow-up after ER Visit, Substance Abuse
- Follow-Up after ER Visit, Mental Illness

Reimbursement tied only to Year 0 metrics

Year 2
Add in:
- Statin Therapy for Cardiovascular Disease
- Child and Adolescent Well-Care Visits

Expand reimbursement to include all metrics

Year 3
Add in:
- Controlling High Blood Pressure
- Comprehensive Diabetes Care
- Immunizations for Adolescents

Investing for tomorrow, delivering today.
As a provider progresses through the tiers, the quality target increases.

Tier 3: Capitation w/ Shared Savings
HCP-LAN Category 4-B + 3-B

Higher quality performance expectations (e.g., 75th percentile)

Tier 2: Collaborative Partnerships
HCP-LAN Category 4-B

Tier 1: Enhanced Reimbursement and Quality Rewards
HCP-LAN Category 2-C

Lower quality performance expectations (e.g., 50th percentile)

Investing for tomorrow, delivering today.
PAYMENT MODEL ROLLOUT

▪ All existing primary care payment arrangements continue through 12/12/25:
  ▪ Providers will continue delivering care as they are now – nothing additional is expected in terms of care delivery

▪ Beginning 7/1/24:
  ▪ Providers will contract with MCOs by 7/1/24
  ▪ Providers will complete quality metric reporting, requiring timely data submission
  ▪ Providers will receive baseline/current reimbursement plus enhanced incentives linked to quality metric reporting (pay for reporting)

▪ Beginning 1/1/26:
  ▪ Tiers 2 and 3 will activate for providers
  ▪ Tiers 2 and 3 have additional requirements, including maintaining an attributed panel of patients, and additional financial incentives

**INVESTING FOR TOMORROW, DELIVERING TODAY**
PAYMENT REFORM KEY TERMS

- **Fee-for-service**: A method in which health care providers, clinics, or hospitals are paid for each service provided. Examples of services include tests and office visits.\(^1\)

- **Capitation**: A method in which health care providers, clinics, or hospitals are paid a fixed amount of money per patient in advance of services being delivered.\(^2\) The amount paid depends on several factors, such as the type of services provided and historical utilization of services.

- **Shared savings**: A strategy that incentivized health care providers to provide higher quality care by offering them a percentage of savings generated as a result of their patient care (“upside risk”).\(^3\) In some arrangements, providers also share in potential losses (“downside risk”).

- **Integrated care**: A model in which healthcare services are managed and delivered so patients receive a continuum of preventative, diagnostic, and treatment services coordinated across various specialties and levels of care.\(^4\) It is characterized by a high degree of communication and collaboration among healthcare professionals.\(^5\)

- **Quality metrics**: Measures that help payers and other stakeholders quantify healthcare processes, outcomes, patient experience, and systems that are associated with the ability to provide high-quality healthcare.\(^6\)
