

# 2024 NEW MEXICO P5 SUMMIT

(PHYSICIAN-PHARMACIST-PATIENT-PAYOR PARTNERSHIPS)

The UNM College of Pharmacy and the UNM School of Medicine invite you to a groundbreaking summit that will serve to build collaboration between healthcare and insurance providers in order to improve healthcare delivery, patient and provider satisfaction, and reduce the cost of care in New Mexico. This gathering will aim to foster partnerships and dialogue with the overarching goal of enhancing primary care services for the residents of New Mexico. The summit will facilitate dynamic discussions on innovative approaches to healthcare delivery, emphasizing the pivotal roles of physicians, pharmacists, and other advanced practice providers in the provision of patient-centric care. By fostering a collaborative environment that includes input from patients and insurance providers, the summit will seek to address comprehensive healthcare needs and create a sustainable framework for improved primary care throughout the state. This initiative reflects a commitment to holistic and inclusive healthcare solutions, with the ultimate goal of advancing the well-being of the people of New Mexico.

**May 13 - 15, 2024**  
**Hotel Albuquerque in Old Town**  
FREE REGISTRATION

---

Continuing Pharmacy and Medical Education credit will be available

#### **Summit Goals**

1. Highlight current healthcare needs, including access and clinical gaps in testing, diagnosing, and treating common disorders in New Mexico.
2. Describe current and future Advanced Practice Pharmacist (APPh) Models, including practice guidelines and protocols in New Mexico and other states.
3. Discuss methods to increase inclusion of APPh into team-based primary and specialty care.
4. Explore innovative strategies that build collaboration between patients and interprofessional teams to address key public health issues.
5. Discuss opportunities for sustainable business models for interprofessional teams.
